

Ivannikov Memorial Workshop
Call for Papers

National Academy of Sciences of Republic Armenia, Russian-Armenian University (Armenia), and Ivannikov Institute for System Programming of RAS organize **Ivannikov Memorial Workshop** in Yerevan, Armenia, on May 3-4, 2018.

The Ivannikov Memorial Workshop is devoted advances in basic IT technologies that serve as basis for modern IT Industry:

- Technologies of program analysis, modeling and transformation.
- Management of Data and Information Systems.
- High Performance Computing.
- System Software and Operating Systems.

A Special Track on 70th anniversary of IT in USSR calls for contribution on the history of IT technologies in USSR.

The Workshop is dedicated to the memory of outstanding Soviet and Russian scientist and developer, Academician Victor Ivannikov, Honorary Professor of Russian-Armenian University.

We solicit original and unpublished articles of current research, results or work in progress. We invite both researchers and practitioners to submit early research work or general discussions. All accepted papers will be published in the Proceedings of Ivannikov Memorial Workshop, that is to be indexed in Web of Science and Scopus. To present your research at Ivannikov Memorial Workshop please submit a paper, that was neither published nor submitted for other conferences. The Workshop Proceedings will be published in June 2018.

We accept:

- Extended abstracts from 1 to 2 pages A4, 12 point serif font, ordinary spacing. Extended templates will be used to review the talk. They are not intended for publication. Based on the results of the review the Program Committee may recommend to provide a full paper for the Workshop Proceedings.
- Full papers 3-7 pages long in [IEEE conference template](#). Accepted papers will be published in the Workshop Proceedings.

Contributions are accepted in English.
